CALCULATING GROWTH PERCENTAGE:

To evaluate the client's growth, we utilized a straightforward perspective. For each year, we compared the billable wages of the respective year with the first year (Year 1) and calculated the percentage increase. Let's delve into the growth figures and their implications.

Growth Analysis

Results

Year Marker	Branches	Working in State Count	Customer Count	Employee Count	Billable Wages Increase (per Year against first full year)
2017	1	2	35	288	<i>Partial Year</i>
2018	2	2	57	397	<i>0%-Baseline</i>
2019	3	2	63	449	<i>25.56%</i>
2020	3	2	77	404	<i>38.18%</i>
2021	3	3	90	503	<i>108.34%</i>
2022	4	3	98	643	<i>189.34%</i>
<i>2023</i>	<i>4</i>	<i>3</i>	<i>96</i>	<i>651</i>	<i>Partial Year</i>

The growth percentages illustrate Client X's remarkable progress. In just 1 year, they experienced a 20% increase in billable wages. The growth momentum continued in Year 3, with an impressive 60% increase compared to the first year.
